FOR IMMEDIATE RELEASE

Nightly Full Closure of Eastbound Highway 126 (Santa Paula Freeway) in Ventura for Pavement Repair

Late Night Closure Scheduled On All Eastbound Lanes

VENTURA – The California Department of Transportation (Caltrans) plans to close **eastbound** lanes of Highway 126 (the Santa Paula Freeway) in the city of Ventura on the nights of June 28, 29 and 30 (Tuesday, Wednesday and Thursday nights) for a pavement repair project.

The full closure involves all eastbound lanes between Highway 101 and Victoria Avenue, and also between Kimball Road and Wells Road (State Route 118), starting at 9 p.m. each night.

All lanes are scheduled to reopen by 6 a.m. the next morning (6 a.m. Wednesday, Thursday and Friday). The closures are not expected to affect the westbound lanes of Highway 126.

Detour signs will be posted. Motorists should expect delays. People in the vicinity may experience noise associated with the work, including grinding of the concrete road surface at several locations in the project area.

The scheduled closures are as follows:

Eastbound State Route 126 from US Highway 101 to Victoria Avenue.

The connectors from north- and southbound US 101 to eastbound SR-126.

Eastbound SR-126 from Kimball Road to Wells Road (State Route 118).

The contractor is RSB Group, Inc. of Lake Forest, Calif., and the dollar amount of the contract is \$270,000. The project is funded by the State Highway Operation and Protection Program (SHOPP). Completion of the project is expected in mid-July. The result will be a smoother riding surface.

The closure schedule will be in effect, weather permitting, and is subject to change. Caltrans reminds travelers to **“Be Work Zone Alert.”**
